Hambourg, September 21.

**C**OUNT Schonborn, the Emperour's Minister here, received an Express the 19th Instant, with the News that the Peace between the Emperour and Empire and France was signed the 7th at Baden; and Yesterday the Magistrates of this City sent two Deputies to congratulate the said Count upon that News. The last Letters from Stockholm, which are dated the 5th of this Month, intimate that there is great Dissention in Sweden among the States. The British Minister residing here, received Letters Yesterday from Hanover, which relate, that General Bothmar, who commands on the Frontier of Hesse, had sent an Express to Hanover, with Advice that the Hessian and Swedish Troops seemed preparing to attempt to force their Passage through the Territory of Hanover, with 14 Battallions of Foot and 3 Regiments of Horse; but having been ordered by the King his Master to oppose their passing, he would do all he could to hinder it. The 3 Swedish Battallions of Deux-ponts, 2 of which are commanded by Colonel Leitrum and the 3d by Colonel Bassewitz, are arrived at Rheinfels, where they will pass the Rhine, after having been refused Passage through the Territories of the Elector of Mentz. The Duke Administrator of Holstein-Gottorp will send to the Court of Great-Britain M. Petkum, who has so long resided at the Hague, in the Quality of Counsellour of State and Envoy extraordinary. Some English Merchant-Ships which were last Week in the Sound, with a Convoy of 3 Frigates, and were bound for Petersbourg, Riga, Revel, &c, finding that the Swedish Privateers cruise in the Baltick in greater Number than ever, thought it best to turn back to England. The last Letters from Vienna tell us, that notwithstanding the Conclusion of the Peace, Levies are continued in the Emperour's Territories, for filling up the Regiments, his Imperial Majesty being resolved to keep constantly on foot in time of Peace 100000, some say 120000 Men: The same Letters tell us, that that Court have at length settled the Route for the King of Sweden's Passage through Transylvania and Hungary and the other Hereditary Austrian Countries; and that the Emperour has actually sent General Loffel to the Frontiers of Hungary and Transylvania to receive and compliment that Prince. Letters from Konigsberg of the 14th of September give an Account, that the King of Prussia arrived there the 10th at Night, that the next Day his Majesty sitting on the Throne received the Homage of the States Vassals and Subjects of Prussia, who were convened for that purpose there:

That M. d'Ostian Chancellor of Prussia made a Speech to the King on this Occasion on the part of the States, and that the President of the Council and Governour of Brandenburg answered it in the Name of his Majesty; that after the Ceremony was over, his Majesty caused a good Number of Medals of Gold and Silver, coyned purposely for this Occasion, to be thrown among the People, and gave a magnificent Feast to the States, who sat at 24 large Tables: The 14th his Majesty set out for Pillau, whence he will hasten back to Berlin. Letters from Petersbourg of the 3d of September confirm, that the Isle of Aland is in the Possession of the Russians, who found there a great Number of Cattle and Abundance of other Effects which the Inhabitants of Finland had conveyed thither as to a Place of Safety. The Czar's Fleet is sailed from Revel to the Coast of Finland, and a considerable Number of Troops are to be disembarked to joyn those on Aland, thence to pass into Sweden. Since the taking of the small Swedish Squadron under Rear-Admiral Ehrenschild, the Czar in the Galley which he himself commands has taken 2 Swedish Ships.

An infallible Medicine for Weakness in Men; and more especially for Women, though of the longest Date, and which so frequently baffles the most able Physicians, very often terminating in an Ulcerous or Cancerous Wound. The Symptoms are these, The weariness of the Limbs, pale Face, Weakness, Inability to move, hollow Eyes, Diminution of Sight, Inappetency, Trembling, Pensiveness or Sadness, thickness of Urine and a Tendency to Consumption. Prepar'd by J. Moore, Apothecary, at the Pellic and Mortar in Abchurch-lane. London.

An admirable Elixir for the Dropsy, which does more in the Cure of that dreadful Disease than it is believed any other Medicine can, having restor'd many to Health after most other Remedies had been used in Vain, and some who were given over as Incurable. It is to be taken in Drops, and operates only by Urine, which it evacuates exceedingly, without any manner of trouble or disorder of Body. It strengthens the Stomach and Bowels, creates an Appetite, quencheth Thirst, corroborates all the internal Parts, purifies the Blood and Juices, corrects their morbid state, and quickly causes an Alteration for the better, making the Patient light, brisk and easy, and in a short time completely Cures, as Experience demonstrates. To be had only at the Hatch with Blue-Spikes near the Square in Haydon-Yard in the Minories, at 3 s. 6 d. a Bottle, with Directions.

Excellent Drops for the King's Evil, which certainly cure that Distemper in Old or Young, though never so bad; causing all Sores or Ulcers in any Part of the Body to heal speedily, and all Swellings of the Glandules or Kernels to vanish in a short time; they act specifically and without trouble, being pleasant to take, and having no sensible Operation unless a little by Urine, but by rectifying and strengthening the Stomach and Bowels, intimately mixing with the Blood and Juices, attenuating all flagrant Crudities, correcting all sharp Salts, penetrating the utmost recesses of the Body, opening all Obstructions of the Glandules, and by enabling them to perform their true Office, they absolutely cure the Evil in all its most direful Circumstances, after most other Methods and Means have proved ineffectual, and that in so short a time, that did not very large Experience in private Practice confirm the truth of it, one could not believe it possible. To be had only at the Hatch with Blue-Spikes near the Square in Haydon-Yard in the Minories, at 3 s. 6 d. a Bottle, with Directions.
